**ADMINISTRATIVE AND LEGAL STATUS OF THE BODIES OF THE
SYSTEM OF THE MINISTRY OF INTERNAL AFFAIRS OF UKRAINE
AUTHORIZED FOR CARRYING OUT REGULATION FUNCTIONS**

The article is devoted to studying the administrative and legal status of bodies of the system of the Ministry of Internal Affairs of Ukraine authorized to carry out functions of technical regulation. Under the author's definition of this concept should be understood the system of powers, fixed in the acts of administrative legislation, which are assigned to the structural subdivisions and separate bodies of MIA of Ukraine system, with the purpose of their realization of public order protection and provision of public safety by means of participation in forming and realization of the state policy in the sphere of technical regulation, development of technical regulations and conformity assessment of products, which belong to the subject of technical regulation of MIA of Ukraine.

For elemental characteristics of administrative and legal status of the approach based on grouping elements for blocks, intended, structural and organizational, of competence. Thus, the target block reflects the goals and objectives that a particular entity implements when entering into administrative legal relations on technical regulation; structural-organizational block indicates the structural subdivisions, which are entrusted with the implementation of administrative authorities in this area, or defines the organizational structure of the Ministry of Internal Affairs of Ukraine (therefore, this structural element inherent only in legal entities, primarily state bodies and local self-government); the competence block forms the basis of the administrative and legal status and includes the functions performed by the bodies of

the system of the Ministry of Internal Affairs of Ukraine, entering into administrative legal relations in the sphere of technical regulation, and the system of rights and obligations (powers) by which they are assigned to the extent necessary for the performance of their respective functions.

It is substantiated that the functions in the field of technical regulation can be divided into three groups: 1) formation of state policy in the sphere of technical regulation; 2) definition, scientific substantiation and development of technical characteristics of products that are subject to technical regulation by bodies of the Ministry of Internal Affairs of Ukraine with their further fixation in technical regulations; 3) conformity assessment, i.e. verification of compliance with requirements determined by technical regulations, economic entities and other persons.

It was noted that the main purpose of the MIA of Ukraine system bodies performing the functions of technical regulation is to ensure public safety and order, which means ensuring the safety of products that are the subject of technical regulation of these bodies, in particular, pyrotechnics, technical means of security, special personal protective equipment and active defense, hunting and sport firearms, ammunition, and others.

Keywords: administrative legal status, technical regulation functions, administrative legal personality, subjects of legal relations.
