POLICE ASSESSMENT OF THE ATTITUDE OF THE POPULATION TOWARDS THEIR ACTIVITIES

On the basis of an analysis of the monitoring survey of the police (militia) personnel in 2003–2016, the police officers (militia) assessments of the attitude of citizens to them, the possibilities of the population to cooperate with police in various forms, sources of information about police (militia) practice have been found out. On this basis the conclusions regarding the directions for improving the work of police at the present stage, as well as the improvement of cooperation with television, electronic media and establishment of contacts with population have been drawn.

Keywords: *police, militia, citizens' attitude towards police, forms of police-community cooperation, sources of information on police practice.*
