#### EUROPEAN-INTEGRATION DEVELOPMENT OF RISK-ORIENTED APPROACH IN THE ACTIVITIES OF THE STATE BORDER SERVICE OF UKRAINE

The opinion on the problems of risk, the awareness of the phenomenon of risk, which is a constant attribute of human life, with a wide range of manifestations and scales related to the socio-historical development of society, and is in a certain way a reflection of its intensity, is revealed and substantiated. Attention is focused on the fact that for modern perception it is important to understand that in the information society due to the spread of infogenic risks, the social risks characteristic of the industrial stage of social development increase.

The article analyzes a number of documents of the State Border Service of Ukraine, which form a clear idea of the directions and methods of legal and organizational support for risk management in the sphere of border security of our state. Based on the analysis, it was concluded that at the current stage of society's development, grounds have been formed for the establishment of a stable perception of the problem of risk as one of the forming factors of modern and especially future society, which is also gaining more and more general social significance in the national security system.

The article focuses on objectively existing in the system of social development, in general, as well as legal and organizational principles, in particular, on the introduction of European experience of risk management in the activities of the State Border Service of Ukraine. Attention is focused on issues that form a clear idea of the main directions of legal and organizational support in the activities of the State Border Service of Ukraine. A number of documents regarding the implementation of the risk-oriented approach were analyzed and conclusions were drawn regarding the completeness of legal regulation in Ukraine.

**Keywords:** security, threat, vulnerability, risk, risk assessment, risk management, risk-oriented approach.
